EXPERIENCE

Software Developer Intern   Cartrabbit, Coimbatore
Jul 2024 - Jan 2025

- Developed plugins for Wployalty and Spark Editor Plus Pro, ensuring compatibility with existing systems.
- Designed and developed a compatible plugin for Spark Editor, improving user experience and functionality.
- Managed and resolved support tickets, providing timely solutions and enhancing customer satisfaction and retention.

Full-Stack Developer Intern   Idotinc, Perundurai, Erode
Nov 2022 - May 2023

- Worked with ReactJs, php, MySql to build dynamic and scalable web applications.
- Project and development flow planning. Putting together one's own development team has given a new perspective on the development process.

PROJECTS

CodeEvent   Jan 2024
Coding-Club Event Website

- Created a platform facilitating student event registration and access to past event data, alongside staff capabilities for event posting and monitoring of student registrations.
- Stack used - ReactJs, ExpressJs, NodeJs, MongoDB

PNA Inventory   Aug 2023
Inventory Management Website

- Developed an Inventory Management System using PHP and SQL. This system facilitated inventory tracking, stock level monitoring, and report generation.
- Stack used - PHP, MySql

KEC Website   May 2023
Kongu Engineering College website

- This site was built with modern and user-friendly interface to showcase the institution's offerings and facilitate seamless navigation for visitors
- Stack used - HTML5, CSS3, Bootstrap, JQuery

NextFolio   Feb 2024
Personal Portfolio

- Designed and developed a sleek and responsive portfolio website using React.js, Next.js, Tailwind CSS, and Framer Motion.
- This project is focused on both the design and development aspects, ensuring a seamless user experience across devices.
- Leveraged React.js and Next.js for efficient component-based architecture and server-side rendering, enhancing performance and SEO capabilities.
